

Cross Country Teams and Spectators,
Sanders Ferry is a public park. There is a Disc Golf course, RC airplane field, public boat ramp, fishing pier, and picnic shelters. Other people use the park besides the Cross Country meet. Utilize the defined parking areas #1-#7 in this document. If you have to unload/load team tents, coolers, etc., utilize the designated area and do so quickly. Please follow our parking guidelines to accommodate other users of this beautiful park. Park traffic is one way around the circle. Lastly, we appreciate your adherence and patience during these busy days, please be kind to our volunteers. They are just that, and without them these events would not be possible.

Load/ Unload is short term and needs to keep moving. Pull off, set your stuff on the ground (for others to gather) then move on. All other traffic should be directed around Sanders Ferry Rd. to additional parking lots #1-#4. This accommodates traffic flow as spectators come in for later races and spectators leave from previous races. Please do not park in the residential area next to the park, we do not like to disrupt the neighbors. Under **NO CIRCUMSTANCES are spectators permitted to park on the side of Sanders Ferry Rd. – this will result into towing the vehicle as it can block emergency vehicles and the flow of traffic.**

Volunteer and Coach Parking

Sanders Ferry Disc Golf Course

Please use your designated parking area that is assigned to you as you enter the park. We will fill parking area #1 first, followed by #2 and so on. This accommodates traffic flow as new spectators arrive for later races and previous race spectators exit the park.
