Format:

- Junior high school races will be contested as would be in a typical invitational meet format.
- Coaches please register your teams for the meet on Milesplit at least a week before the meet as high school races will be seeded (Scarlet / Gray) based on MileSplit virtual meet results. The Scarlet race will contain the higher seeded teams while the Gray race will have teams seeded in the lower portion of the virtual meet results. Since race result data will be limited due to this being an early season meet, if you feel your team or select individuals should be seeded in the other race please contact alexander-k@troy.k12.oh.us. Every reasonable attempt will be made to accommodate your preference while being cognizant of keeping races relatively balanced based on entry numbers. Individual time standards to move up to the Scarlet race will be determined by data in the virtual meet results. Race listings will be sent out Wednesday evening the week of the meet. Larger squads will likely need to be split to balance races. Our goal in setting up the schedule using this format is to create competitively balanced races that will add to the atmosphere of the evening.

Course:

- See attached course maps.
- For the high school 5k, nearly 3 kilometers of the race will be on the Miami River flood plain between Adams Street and Market Street bridges, starting near the Adams Street bridge. The runners will then climb the levee near Market Street, run 1 kilometer on top of the levee, with the final kilometer on the stadium side of the levee, entering the stadium with approximately 800m to go.
- For the junior high 3200m, the starting line will be near the Market Street bridge, head towards the Adams Street bridge on the flood plain then come up the levee near Market Street, run 1 kilometer on top of the levee, with the final kilometer on the stadium side of the levee, entering the stadium with approximately 800m to go.
