

Lejeune High School 5k Course

The 5k course begins and ends just outside the right side of the main school building and essentially consists of repeating a 1-mile loop three times. The loop goes around the soccer practice field, cuts through the tree line to the gravel lane that runs along the school property. Runners turn left on the lane and run to the end where it makes a 'tear drop'. Runners return on the lane but cut through the tree line at a different location. Runners emerge from the tree line between the softball and baseball fields. Runners turn right and go around the baseball field and continue past the shed where the first loop is completed. Runners repeat this loop two more times and on the third loop turn right at the shed and run straight to the finish line.
